

A FOCUSED LITTLE RUN.

SNAKE ARCADE

A compact browser game
built around one clear
idea: keep it moving.

A classic loop, tuned for the web

24

ONE BOARD / FOUR DECISIONS

The game keeps the rules familiar and the feedback immediate. Every move is a trade between space, pace, and the next signal.

- Guide the snake across a 24×24 grid
- Eat signal dots to grow and score
- Keep moving as the pace climbs
- One run, one next best

Every input feels immediate

INPUT MAP / LIVE

- Arrow keys and W A S D
- Swipe anywhere on the game board
- Tap controls for mobile play
- Space bar or button to pause
- Accessible labels and visible focus states

Designed for a focused session

- Ready, playing, paused, and game-over states
- Current score and persistent best run
- Speed tiers increase as the score grows
- Responsive layout from desktop cabinet to mobile screen
- Reduced-motion support for a calmer experience

Small system, real game feel

REACT STATE / BROWSER LOCAL

- React state drives the complete game loop
- Timed ticks control movement and escalating speed
- Collision detection handles walls and the snake body
- Food is randomized across open grid cells
- Best score persists locally in the browser

FINAL READOUT

Keep it moving.

- A polished retro-arcade experience in one screen
- Clear controls, readable feedback, and satisfying progression
- No leaderboard. Just your next best.

Built for the next focused run.
